SIMPLE AND SAFE BOATING IS THE BEST

Is there anything better than a beautiful, carefree day on the water? Our modern and popular boats – designed and manufactured in Norway since 1959 – are recognised for their quality, practical and solid construction, and user friendliness. With Pioner you will find practical, reliable, robust and environmentally friendly models to suit every taste. Looking for a boat for the coastline or a mountain lake? For adults or for young people? For beginners or more experienced boat users? For leisure, professional use or tourism?

Try a Pioner and experience real boating fun!

PIONER - FOR A SIMPLE BOATING LIFE

Using and owning a Pioner boat is easy and practical.

The much sought-after boats in the Pioner range are rotationally moulded in polyethylene and built for demanding conditions. They will withstand rough treatment, require little maintenance and last a lifetime. We pride ourselves on our ability to make safe products of first-class quality. The environment and our surroundings are two of our top priorities, and Pioner's modern boats are recyclable.

DESIGNED AND
PRODUCED IN NORWAY

A boat from Pioner has many advantages:

ROBUST

Pioner boats will withstand rough treatment, are user friendly, require little maintenance and last a lifetime. It is these qualities that have made Pioner boats so popular among boaters worldwide. The boats are rotationally moulded in polyethylene – a very robust material with an added UV stabiliser for longevity. The boats are moulded in one piece and can withstand enormous stresses, such as bumps and knocks, extreme temperatures and sunlight.

QUALITY

We apply for Det Norske Veritas Germanischer Lloyd (DNV-GL) approval for our boats, in addition to the CE label. DNV-GL monitors our production, and tests and approves our boat models to verify that the CE regulations have been met. Cipax AS has strict procedures for our entire production. Combined with the professional expertise of our staff, this ensures that Pioner boats are of superior quality. In 2016 all Pioner and Steady branded models were recertified by DNV-GL to comply with the new recreational craft directive (2013/53/EU).

STRONG MATERIAL

Pioner boats are rotationally moulded in polyethylene. The production method and the structure of the boats makes them highly robust and durable. Pioner boats can be pulled up onto the beach and rocks.

MINIMAL MAINTENANCE

The boats require minimal maintenance. This gives users more time to enjoy "simple boating". Should your Pioner become damaged, repairs are no problem.

LONGEVITY

Pioner boats are made from a plastic material containing UV stabilisers, which prevent the colour from fading and the material from degrading over time.

STABILITY

The structure and design of Pioner boats make them stable and safe. Our customers are safe when using one of our boats and while it is moving. The boats have a double-hull design that glides through the water and provides good buoyancy and safety.

SAFETY

Det Norske Veritas Germanischer Lloyd (DNV-GL) checks and approves Pioner's boats as an independent third party. This gives Pioner users confidence and the ability to enjoy their boating.

RECYCLABLE

Polyethylene is an environmentally friendly material which is 100% recyclable. Any materials surplus to boat production are re-used in other products. Even the production method is very environmentally friendly. PIONER is the environmentally friendly choice.

PIONER MULTI

IT'S ALL ABOUT MASTERING THE MAJORITY OF CHALLENGES AT SEA

It's all in the name. The Pioneer Multi has such an intelligent design that its usability stretches from an emergency boat to a fishing boat, to a diving boat.

Professional seafarers love this boat, which offers extensive features and a loading capacity of 1,122* kg.

The bow port is lowered with a rust-free hoist, which eases embarking/disembarking and loading/unloading. It has a simple design and is extremely seaworthy. There are many more than just professional boaters who need a Pioneer Multi.

* D classification. Class C 972kg.

Weight	466 Kg (Excluding optional equipment)
Length x width	530 cm x 215 cm. Bow port: 92 cm.
Max occupants	8 / 10 (C/D classification)
Max HK / KW	80 / 60
Shaft length	Long
Optional equipment	Extra seat box, small console, large console, console port side, windshield, windshield frame, ladder railing set, A-frame with lanterns and a switch panel, back support with cushion, console cover, Fixing bracket for sounder.
Certification	CE category C/D DNV-GL
Max speed	33 knots

PIONER MULTI

PIONER MULTI - AN ALL-ROUNDER FOR PROFESSIONAL AND LEISURE USE

THE PRACTICAL ALL-ROUNDER

The Pioneer Multi is designed to handle everything. And it delivers.

One boat designed and built with that objective in mind – to master demanding conditions and be put to many different uses – is the Pioneer Multi.

FUNCTIONAL AND SAFE

This tough and agile workhorse is the water's response to the 4x4: practical, versatile, efficient and robust.

It has long been used by the police, fire and rescue services, and the Red Cross, as well as by many trade users whose way of life revolves around the sea or water, such as marinas, fish farmers and divers. It is also used by sheep farmers, hunters and craftspeople.

You won't find a sturdier, safer boat. The Pioneer Multi has a recommended outboard motor rating of 50 to 80 bhp. This gives you the power you need.

* D classification. Class C 972kg.

FOR NEW DISCOVERIES

The Pioneer Multi also puts in a splendid effort as a leisure boat for lakes or coastal waters. It is approved to take a load of 1,122* kilos and has space for up to 10 persons. This gives it a superior capacity whether you are carrying baggage, materials, bicycles, goats or some other cargo.

It is perfect for bountiful fishing trips, lobster expeditions and other exciting hobbies and voyages of exploration.

The bow door can be opened well out to sea, allowing anyone who would like to do so to swim out and play.

” Pioneer Multi – for a wide range of activities ”

PIONER 17 FLEXI

SPEED, COMFORT AND VERSATILITY WITH GREAT DESIGN

Pioner 17 Flexi is constructed for the active boater. It is equipped with a centered console, stainless gunwales and auto self-draining as standard.

This is a robust and extremely seaworthy all round boat with bold design. You can use your Pioner 17 Flexi everyday, on holidays or you can use it when you go scubadiving or endorse in other watersports. Flexi has a large deck with plenty of storage room.

Weight	390 Kg

PIONER VIKING

A SPORTY JEEP FOR THE COAST OR A SPACIOUS COUNTRY BOAT

The Pioneer Viking has a simple design and excellent seaworthiness. The boat has a high freeboard and is a perfect family boat.

The Pioneer Viking is a self-draining boat with a proven hull. The standard model has three lockable areas for luggage, equipment and the fuel tank. The boat has ample space for six people.

Additional equipment, such as a A-frame with lanterns, rust-free railings, a set of cushions, windshield and windshield frame make the Pioneer Viking an attractive boat that can achieve good speeds.

Weight	340 Kg
Length x width	450 cm x 190 cm
Max occupants	6
Max HP / KW	40 / 30
Shaft length	Long
Optional equipment	Windshield, windshield frame, railing set, back support with cushion, set of cushions, ladder, A-frame, lantern mast.
Certification	CE category C DNV-GL
Max speed	27 knots

PIONEER VIKING

PIONER 15

GIVES YOU THE GREAT FEELING OF SOLID CONSTRUCTION AND PROVEN DESIGN

The Pioner 15 is one of Norway's best-selling country boats. This is not surprising considering its versatility.

Go fishing or island hopping; your family, friends, pets and luggage will all be transported safely. The Pioner 15 is a robust boat that you can always rely on.

This spacious 15 footer has ample room for five people, and is stable and extremely seaworthy. Two lockable storage areas help to keep order on board. The boat can withstand rough conditions, has a simple design and a maximum speed of 22 knots.

Weight	200 Kg
Length x width	450 cm x 180 cm
Max occupants	5
Max HP / KW	25 / 18,7
Shaft length	Long
Optional equipment	Console, windshield, windshield frame, railings, ladder, front and stern, back support with cushion, set of cushions, lantern mast, oars.
Oars	9"/270 cm
Certification	CE category C DNV-GL
Max speed	22 knots

PIONER 15

PIONER 14 ACTIVE

COMBINING TRADITION AND SAFETY WITH A MODERN DESIGN

The Pioneer 14 Active is one of our newest models. It combines classical lines and exceptional driver comfort with modern details and a beautiful finish.

Rope cleats have been integrated into the hull of the boat. A practical space on the port side is suitable for long objects, such as a boat hook and fishing rod. On the starboard side there is a space for smaller items, such as mobile telephones and wallets. The boat also has a battery area, space for a fuel tank under the stern seat, and additional storage space under the middle seat.

The boat has good buoyancy and a high deck level, and it is self-draining and well suited to today's 4-stroke engines.

A high freeboard allows you to remain dry and comfortable, even in rough waves. Pioneer 14 Active is a spacious 14 foot boat for four people. Active boaters will gain a considerable amount of pleasure from this boat.

Weight	220 Kg
Length x width	411 cm x 173 cm
Max occupants	3/4 (C/D Classification)
Max HP / KW	20 / 15
Shaft length	Long
Optional equipment	Console, cushions, lantern mast, railings, windshield, windshield frame, back support with cushion, oars, ladder.
Oars	9"/270 cm
Certification	CE category C/D DNV-GL
Max speed	22 knots

PIONEER 14 ACTIVE

PIONER 13

FOR CAREFREE BOATING

The Pioner 13 makes owning a boat easy. It is even, stable and easy to drive. Good seaworthiness is appreciated by both new boat owners and experienced boaters alike. The boat is suitable for smaller 4-stroke engines and rowing.

The standard model is spacious and has ample room for four people. Luggage, equipment and the fuel tank can be placed in two lockable storage areas.

The boat can be equipped with a railing set and set of cushions.

Weight	155 Kg
Length x width	393 cm x 155 cm
Max occupants	4
Max HP / KW	8 / 6
Shaft length	Short
Optional equipment	Railings, set of cushions
Oars	8"/240 cm (standard equipment)
Certification	CE-category D DNV-GL
Max speed	10 knots

PIONER - THE BOATS OF THE FUTURE ARE HERE!

The new design, the attractive finish and the fine cast details are easy to spot, but the biggest improvements have to be experienced.

At Pioneer we have adopted new methods and improved technology in the development of our new models, Pioneer 10 Classic and Pioneer 12 Maxi.

The Pioneer 12 Maxi is a fashionable and safe family boat as well as a tough boat for young people, while Pioneer 10 Classic is a smart boat that is easy to handle and manoeuvre – perfect for children and adults alike.

EVEN MORE DURABLE

New features include the raised deck, which offers greater buoyancy. This allows the boat to carry a bigger load and to drain more efficiently. Pioneer is a market leader in this field, and with these two new models we've once again raised the bar in this technology.

During moulding, a newly developed heat distribution method is used. The hull and interior floor are reinforced to ensure comfort, and the boat is perceived as being more comfortable and stable than earlier models.

Many people also like to row. The new models are built with a longitudinal internal thwart for optimum rowing – for young and old alike.

NEW SOLUTIONS AND USABILITY

Pioneer is a traditional boat manufacturer that also designs, develops and manufactures modern boats. It is important for us to be the leader of future-oriented solutions. We're confident that the new models will offer boat owners and users a more modern and user-friendly boating experience compared to our competitors and earlier Pioneer models in this class.

PIONER 12 MAXI

TOUGH SAFETY FOR THE FUTURE

The Pioneer 12 Maxi is a modern, safe and versatile boat. It is self-draining, has a simple design and is very stable and solid. Pioneer is a market leader in rotationally moulded design, and with the new Pioneer 12 Maxi this construction method is taken to new heights. The boat's double hull makes it extremely safe, and full contact between the deck and hull make a more rigid and robust boat.

The boat can accommodate three to four persons, and a high freeboard ensures a comfortable and dry boat trip for all. A longitudinal thwart is designed for the best possible rowing conditions.

This is a modern boat in finish and design, with small, finely moulded details such as cup holders, grips and solid rope cleats.

Whether your cabin is located by a mountain lake, a small tarn or by the sea, the Pioneer 12 Maxi is a boat that you and your family will love for its user-friendly versatility; take it out for a spin, make a flying visit to the shop, go swimming, fishing or take a trip to an islet.

PIONER 12 MAXI

PIONER 10 CLASSIC

FUN AND EASY-TO-USE QUALITY BOAT

The Pioneer 10 Classic is a smart, safe boat which is easy to control and manoeuvre – perfect for children and adults alike.

This modern model is self-draining, solid, has a simple design and is fun to row. The Pioneer 10 Classic feels very safe and is also suitable for use in a variety of conditions, something appreciated by young and old alike. The boat will accommodate three persons and is approved for 8 bhp.

The Pioneer 10 Classic is very practical, user-friendly and robust. It is self-draining. This is a modern boat in finish and design, with small, finely moulded details such as cup holders, grips and solid rope cleats. The model is brilliant for use as a towing dinghy or at the cabin, be it at the coast, by a tarn or by a mountain lake.

Pioneer is a market leader in rotationally moulded design and has taken construction and production to new heights with this brand-new model.

PIONER 10 CLASSIC

PIONER 8 MINI

PERFECT AS A FIRST BOAT FOR CHILDREN BUT ALSO AN IDEAL SMALL TENDER FOR SHORT TRIPS

The Pioner 8 Mini is a boat with an impressive variety of uses: Put it on the car roof rack and be sea-ready wherever you go; use it to get to and from another boat; tow it, or let the children develop good boating habits with this sturdy boat.

The Pioner 8 Mini has a good speed with a small engine, and is easy to row. Lengthwise seats provide comfortable seating and the oars can be secured with straps during towing.

PIONER TRIO

THE MODERN AND ROBUST FAVOURITE

Trio is a fun and out-of-the-ordinary pedalo that brings the whole family together in shared activities. Trio has a modern and attractive finish and can seat up to five people. Two of the seats can be folded down and made into a sunbed, and you can retrofit a bathing ladder. The Pioneer Trio is self-draining.

Weight	175 Kg
Length x width	375 cm x 190 cm
Max occupants	5
Optional equipment	Ladder, Boarding railings
Colour	

THE ENJOYABLE AND SOCIAL WAY TO KEEP FIT

Anyone who has used a pedalo before will know that they are suitable for every occasion: from sunbathing and relaxation to games and sport; for children and adults, families and friends.

The holiday feeling is never far away in a pedalo. They are often to be found for hire on beaches and in activity parks, campsites or other tourist spots. But what about owning one yourself?

Enjoy the quietness of a gentle walk, let the youngsters play and swim, or use it as a social workout. The choice is yours.

Pioneer represents Norwegian quality products, and over the years it has been one of Europe's largest producers of pedalos.
